

CARDRONA VILLAGE HALL ENVIRONMENTAL POLICY

Cardrona Village Hall recognises that its operation and activities have an impact on the environment.

Cardrona Village Hall is committed to minimising any negative impacts on the environment through the adoption of a reasonably practicable environmental action plan. The action plan will be relevant to all hall activities and services. The Hall Committee, User Groups and occasional Hall Hirer's will endorse this policy.

All users of the Village Hall will be responsible for implementing the environmental policy. Performance will be monitored for compliance and improvement.

Copies of this statement will be made available, on request, to members of the public and other interested parties. The Hall Committee will promote the policy, where appropriate within the communities, with which, we work.

ACTION PLAN - SPECIFIC ACTION'S

1. Ensure efficient use of water, electricity and gas. Minimise waste.
2. Ensure efficient of other resources to minimise waste e.g. print on both sides of paper. Recycle glass and any other relevant materials. Encourage car sharing and use of public transport to and from the hall.
3. Prevent any pollution of the environment from the hall.
4. Promote the best practise in the prevention and management of pollution at the Village Hall and where appropriate in the community, where we work.
5. Keep up to date with relevant environmental legislation via contact with the Borders council or any other means.
6. Ensure compliance with all current legislation.
7. Promote awareness of relevant environmental legislation and standards. Encourage compliance within the community with which, we work.

On behalf of the Cardrona Village Hall Committee

Chairman

16th November 2005
